SOP-RET-01 Returns and Refunds

Fictional sample document created for an open-source demo.

Purpose and scope

This procedure tells support agents how to handle customer returns and refunds for all products sold online by Acme Supply Co.

Return window

Customers can return unopened items within 30 days of delivery for a full refund. Opened items can be returned within 14 days of delivery and are subject to a 15% restocking fee. The return window is counted from the delivery date shown in the carrier tracking.

Procedure

Step 1. Confirm the order number and the delivery date in the order system.

Step 2. Create a return authorization (RMA) number in the order system and send it to the customer.

Step 3. The customer receives a prepaid return label by email within one business day.

Step 4. When the item reaches the warehouse, it is inspected. Refunds are issued to the original payment method within 5 business days after the warehouse inspection.

Return shipping is free for unopened items. For opened items, the cost of the return label is deducted from the refund.

Exceptions

Custom-cut desktops and clearance items are final sale and cannot be returned.

Items damaged on arrival must be reported within 48 hours of delivery, with photos of the item and of the box.

Refunds over $500 require approval from a support manager before they are issued.
